MISSION RESOURCE COMMITTEE (MRC)
Dave Timm 847-997-4577
MRC strives to assist the congregation and its members to best use the resources of our community to make Christ known. In programs and campaigns throughout the year, MRC holds up the importance of members using their time, talents and treasures to accomplish the work of the church. The annual fall stewardship program and financial commitment process is another of our tasks. Capital fund raising -- if and when the congregation decides to do such a project -- would also fall within the scope of our work. Those with passion for OSLC, a commitment to growth in giving, and a knack for having creative fun together would fit well in this group!

FRIENDSHIP CALLERS
Jim Valentine 847-255-8700 ext. 231
This group of friendly phone callers make 5-6 phone calls each quarter to members we haven't seen in worship for the last three months. Keeping in touch with less active members and passing on their concerns and situation to the pastors assures that those who haven’t been around are missed and contacted. If you have the gift of listening and compassion, this would be a good ministry for you.

COMMUNICATIONS
Ann Wagner 847-255-8700 ext. 242
If you enjoy and excel in any area in the following categories, we could use your passions and talents! Press release writing, creative writing, website maintenance, photography, graphic design, marketing, and publicity are all skills and interests that would help us do a better job of getting the word out regarding the ministries at Our Saviour's Lutheran Church.

PROPERTY COMMITTEE
Rick Zanini 847-870-8415
Our actions are important in maintaining the effective functioning and appearance of our church, from flowers in the garden to the heat and air conditioning systems. “Property” gives members an opportunity to use their skills including painting and decorating, electrical, plumbing, construction and carpentry to the benefit of others. Meaningful opportunity to work in and with a team of dedicated individuals and have the satisfaction of seeing the results of one’s efforts. Skills include the ability to assess & evaluate the condition of the physical properties, identify appropriate maintenance needs, make repairs, and improve the appearance & function of the physical property.
